### **Police and Firemen Survivors Benefit Fund**

This fund was established in 1963 under chapter 104 of the General Statutes, and is administered by the state as an adjunct of the Municipal Employees' Retirement System. The primary objective of the fund is to provide benefits for surviving dependents of deceased municipal policemen and firemen which elect to join this fund. Employees contribute 1% of their yearly compensation and the municipality contributes an additional premium payment. Seven (7) municipalities were participating as of June 30, 2011. There are 603 employees who are members of this Fund and 102 dependents of deceased employees receiving survivor benefits.

### **Federal Old –Age, Survivors, Disability and Health Insurance**

Under chapters 66 and 113 of the General Statutes, the Retirement Commission is authorized to act as agent for the state in all matters relating to social security executed under Section 218 of the Social Security Act. In this capacity, the Commission extended Social Security coverage to additional employees of several political subdivisions of the State. The Commission also provides information material to state and municipal officials concerning social security coverage of public officers and employees under the provisions of federal and state laws and regulations. Referendums among members of retirement systems are supervised. Guidance in maintaining records, filing reports, and making payments is also provided.

Effective January 5, 2011, PA 09-114 (sHB 6385), *An Act Concerning Probate Court Reforms and Establishing a Probate Redistricting Commission*, establishes a new method of funding probate courts and compensating probate court judges and a process for consolidating and reorganizing the probate court system. As a result of this process, there are currently 54 probate courts: 23 courts which remain the same as they were prior to the consolidation and 31 new courts. A new court resulting from the redistricting plan is generally comprised of two or more formerly independent courts. As this was considered to be a "new" entity, a formal request for social security coverage had to be received and processed from each court.

Since July 1, 2010 the Retirement Services Division conducted and otherwise processed social security coverage referendums for the following: 31 new Probate Courts; 8 existing

Probate Courts that are modifying their Sec. 218 agreements; and 5 new Regional Children's Probate Courts.

A referendum was also conducted for the City of West Haven to extend Social Security coverage to Police Officer positions, by employees hired since November 1, 2009.

### **Connecticut Municipal Employees Retirement System**

Authorized under chapter 113, part II of the General Statutes, the Connecticut Municipal Employees' Retirement System (CMERS) was established to provide a sound and efficient system for the payment of retirement benefits to municipal employees. On being hired by a participating municipality, municipal employees automatically become members of the system. Deductions are made by the municipality for each eligible employee, recorded in the member's account, and deposited with the state treasurer). The State Treasurer is responsible for investing CMERS funds for the exclusive benefit of CMERS members. By statute, members may purchase additional benefits for military and prior service with a participating municipality. Members may obtain a refund of contributions without interest upon resigning from municipal service.

CMERS provided two retirement plans with separate funds for those political subdivisions, which elect to participate. Fund "A" applies to the benefits established in 1945 and formally ended in 1993 with the enactment of PA. 93-356; thus were no municipalities participating in Fund "A" as of June 30, 2010. Fund "B" applies to the benefits established in 1947 as amended to date. There are two different "plans" in Fund B: one for employers covered by social security ("Part B") and one for employers whose employees are not covered by social security ("Part A"). There were 195 agencies, departments and units from 99 municipalities participating in Fund "B" as of June 30, 2011. Active membership was 8,579 with 5,705 retirees and 600 contingent annuitants (optionees) receiving benefits.

The CMERS system is supported solely by the contributions of the municipalities and the employees, with no contributions by the State. The rates of contribution by the municipalities are adjusted periodically in such a way that the assets of the funds, together with the present value of future contributions for which the municipalities are obligated, are kept approximately equal to the liabilities in order to maintain the funding on a sound actuarial basis. As of July 1, 2010, the last full valuation, the funding level was 88.40% determined as the ratio of the actuarial value of assets over the total accrued liability. Copies of the valuations are located on Office of the State Comptroller's website at <http://www.osc.ct.gov/rbsd/cmers/plandoc/index.html#Plan>

Public Act 83-383 provides a continuing cost-of-living adjustment (COLA) for municipal employees retirees, payable commencing each July first, if retired for disability, otherwise on the first of July following attainment of age 65 if retired prior to January 1, 2002, at a variable rate, not to exceed 5 percent, based on the assets and liabilities of the fund, provided no COLA adjustment is less than 3 percent. Public Act 01-80 provides municipal employees retiring on and after January 1, 2002 with a COLA on the first July 1 following their retirement date. The COLA ranges from 2.5 percent to 6 percent and is based on a formula tied to changes in the consumer price index. Public Act 01-80 allows municipal employees

who retired before January 1, 2002 , and before they turn 65, to receive a 2.5 percent COLA beginning July 1, 2002; on the first July 1 following such retired employees' 65<sup>th</sup> birthdays, the COLA reverts to the 3-5 percent COLA.

In 2010, CMERS posted an interactive “self-help” retirement counseling workshop and online benefit estimator for its members which are located on the Office of the State Comptroller website. The goal is to provide the employee with a general explanation of the most important CMERS retirement issues and to provide the employee with an estimate of his or her benefit at retirement. CMERS also introduced “For Your Benefit” - the CMERS quarterly E-Newsletter designed to provide both employers and employees with important information on MERS provisions and administration. Lastly an *Employers' Guide to CMERS* was developed to provide employers and their benefit, human resource, payroll, and personnel directors with relevant CMERS information. Future sections will include information on purchases, contributions and similar topics. The Guide is also located on the Comptroller's website.
