

UNIVERSITY OF CONNECTICUT HEALTH CENTER
JOB OPPORTUNITY
IT PROJECT MANAGER
OFFICE OF THE CIO

[PLEASE FOLLOW THE SPECIFIC APPLICATION FILING INSTRUCTIONS AT THE BOTTOM OF THIS PAGE!](#)

Open To: The Public

Location: Farmington

Job Posting No: 2011-930

Hours: 40 hour work week, Monday through Friday, 8am to 5pm; some flexibility necessary to accommodate project needs.

Salary: TBD

Closing Date: Open until filled

The University of Connecticut Health Center (UCHC) is seeking an experienced, dynamic project manager to manage the analysis, planning and implementation of new Dental EMR and Dental PACs systems. This position will be responsible for planning, coordinating and leading all aspects of these projects in order to meet organizational goals and timeframes. The ideal candidate would have strong large scale programs and project management experience with Clinical, Dental EMR and/or PACs systems, very strong planning skills and be a self-motivated, dedicated leader able to quickly adapt to new concepts and directions. The position ensures that the project goals or objectives are accomplished and support compliance, efficiency, cost reduction and quality objectives.

General Knowledge: Demonstrated knowledge of Healthcare, clinical, dental and/or PACs systems. Demonstrated project leadership skills, including strong experience with all project life cycle phases, including planning, analysis, specifications, quality assurance, process re-engineering, end user training, implementation and monitoring of compliance and metrics. Proven ability to lead, manage and motivate cross functional teams challenged with multiple priorities. Demonstrated ability to manage and creatively solve problems impacting project progress. Ability to communicate project progress and issues at all levels, including presenting key highlights to senior executives. Demonstrates clear accountability for team performance and ownership of project results. Experience with vendor management, including creating RFPs, negotiation of contracts, financial monitoring and resource management.

General Experience: Eight (8) years experience managing multiple large scale Clinical system implementations with complex integration, data migration, reporting and data warehousing requirements with special requirements as noted. Demonstrated experience with multiple clinical system implementations through all project life cycle phases, including planning, analysis, specifications, quality assurance, process re-engineering, end user training, implementation and monitoring of compliance and metrics.

Special Experience: Two (2) to four (4) years of general experience must include experience with installation and management of Clinical/HealthCare/Dental EMR or Dental PACs systems, preferably in a healthcare and/or academic university environment. PMP certification helpful.

Substitution Allowed: Bachelor's degree in Business Management, Computer Science or a clinical specialty may be substituted for four (4) years of the general experience.

Note: To learn more about the examples of duties for this position go to <https://jobs.uchc.edu> and reference search code 2011-930.

Application Instructions: Interested and qualified candidates who meet the above requirements please apply to: <https://jobs.uchc.edu> and reference search code 2011-930. Cover letter, resume and references may be uploaded at the time you apply on-line.
