JOB OPPORTUNITY
IT PROJECT MANAGER - Implementation of Bioscience CT
OFFICE OF THE CIO**

PLEASE FOLLOW THE SPECIFIC APPLICATION FILING INSTRUCTIONS AT THE BOTTOM OF THIS PAGE!

Open To: The Public
Location: Farmington
Job Posting No: 2013-727
Hours: 40 hours per week, Monday thru Friday, 8:00 a.m.- 4:30 p.m. Some flexibility may be necessary to accommodate project needs.
Salary: TBD
Closing Date: June 1, 2013

The University of Connecticut Health Center (UCHC) is seeking an experienced, dynamic project manager to manage the analysis, planning and implementation of clinical systems and technology associated with the implementation of Bioscience Connecticut Clinical Projects. This position will be responsible for planning, coordinating and leading all aspects of these projects in order to meet organizational goals and timeframes. The ideal candidate would have strong large scale program and project management experience with clinical inpatient and outpatient systems, very strong communication, planning, problem solving skills and be a self-motivated, dedicated leader able to quickly adapt to new concepts and directions.

General Experience:

- Eight (8) years' experience managing multiple large scale Clinical system implementations with complex integration.
- Demonstrated Healthcare and clinical systems knowledge.
- Strong project planning skills including ability to set direction and goals that are consistently achieved.
- Proven ability to lead, manage and motivate cross functional teams challenged with multiple priorities.
- Demonstrated ability to manage and creatively solve problems impacting project progress.
- Ability to communicate project progress and issues at all levels, including presenting key highlights to senior executives.
- Strong experience with all projects life cycle phases, including planning, analysis specifications, quality assurance, process re-engineering, training, implementation and monitoring of compliance and metrics.
- Demonstrates clear accountability for team performance and ownership of project results.

Substitution Allowed:

Bachelor's degree in Computer Science or a closely related field may be substituted for four (4) years of the general experience.

Special Requirement:

- Strong knowledge of healthcare and clinical operations in a clinical or academic university environment.
- Strong experience managing complex projects with large integration, data migration, reporting and data warehousing requirements.
- Demonstrated experience with multiple clinical systems implementations.
- Demonstrated experience with vendor management, including RFP, negotiation of contracts, financial monitoring and resource management.
