

HOUSATONIC COMMUNITY COLLEGE
JOB OPPORTUNITY

INSTRUCTOR OF MATHEMATICS

Full-time, 10-Month, Tenure-Track Position
Renewable for the duration of the Grant (Three years)

PLEASE FOLLOW THE SPECIFIC APPLICATION FILING INSTRUCTIONS AT THE BOTTOM OF THIS PAGE!

ANTICIPATED START DATE: Spring 2014

MINIMUM QUALIFICATIONS: Master's degree in Mathematics or a closely related discipline with an emphasis on coursework in advanced mathematics. The successful candidate must demonstrate a passion for teaching mathematics to both majors and non-majors at the community college level and be able to teach face to face and online using effective teaching techniques to address the needs of a diverse student body with an array of learning styles. This individual must be able to teach multiple college-level mathematics courses; use current mathematics and teaching technology in the classroom; demonstrate the ability to implement engaging computer-based mathematics learning modules; demonstrate the ability to effectively investigate and implement student engagement and learning experiences which will support marginally prepared students; demonstrate the ability to implement, document, objectively evaluate and assess experimental teaching methodologies; demonstrate excellent teaching, communication and interpersonal skills; demonstrate ability to motivate students and colleagues; demonstrate evidence of good judgment and tact conducive to a collegial environment; demonstrate effective participation in creative and collaborative group projects; demonstrate current computer based skills. Evidence of ongoing professional development.

Applicants who do not meet the minimum qualification as stated are encouraged to put in writing precisely how their background and experience have prepared them for the responsibilities of this position and by providing appropriate references. Exceptions to the degree requirements may be made for compelling reasons.

PREFERRED QUALIFICATIONS: Two years of experience teaching college-level mathematics courses (with excellent classroom and student evaluations) at the community college level; experience teaching and creating online and/or hybrid courses; experience in designing innovative mathematics lessons and professional experience as a mathematician in a non-classroom setting

RESPONSIBILITIES: This instructor is expected to teach twenty-four credit hours each academic year in the area of mathematics as well as implement and evaluate innovative mathematics curricula. Student support, motivation, retention and successful learning are important responsibilities. Other responsibilities include: advising students, developing and participating in special college projects, developing new instructional techniques and courses, participating in faculty and department meetings, attending workshops and conferences to maintain currency in the profession, participating in other college and community service activities consistent with the mission of the College and the Connecticut Community College System. This instructor is also required to participate in commencement and convocation activities as well as special college meetings. The teaching schedule may include evenings and/or weekends in a face to face and/or online teaching environment.

STARTING SALARY: \$49,136.00 approximate annual salary, with full benefits package.
