

DEPARTMENT OF EMERGENCY SERVICES AND PUBLIC PROTECTION  
JOB OPPORTUNITY  
INFORMATION TECHNOLOGY ANALYST 2

**PLEASE FOLLOW THE SPECIFIC APPLICATION FILING INSTRUCTIONS AT THE BOTTOM OF THIS PAGE!**

**Open To:** **Candidates on a Current Exam Certification List**

**Location:** Middletown

**Job Posting No:** 80440

**Salary:** \*\$68,584.00 - \$86,919.00

**Closing Date:** **Monday, April 23, 2012**

\*New hires to state employment start at the minimum of the above salary range.

**Eligibility Requirement:**

**Candidates must have applied for and passed the INFORMATION TECHNOLOGY ANALYST 2 exam and be on the current certification list promulgated by the Department of Administrative Services for this classification. State employees currently holding the above title or those who have previously attained permanent status may apply for lateral transfer. Applicants will not have the opportunity to take the exam prior to the above closing date to qualify for this particular vacancy.**

The Department of Emergency Services and Public Protection is seeking a results-oriented, team player with strong systems analysis, development and project management skills for an IT Analyst 2 position.

The person who serves in this technical position will work closely with various units to automate and/or streamline existing systems and develop new systems that enhance public, officer, and firefighter safety, improve statewide emergency management and homeland security, and achieve significant improvements in support staff productivity and efficiency.

**Responsibilities** include, but are not limited to, the following:

- Manage multiple information systems projects simultaneously that automate manual processes and reduce/eliminate existing backlogs across the agency's units
- Increase the department's portfolio of online services
- Drive greater collaboration and information sharing amongst federal, state and local partners
- Implement strategic application development, testing and staging environments at HQ data center
- Enhance the performance and value of existing unit databases
- Migrate legacy databases to a more robust and secure platform
- Enhance the agency's IT security and disaster recovery posture
- Migrate department intranet site to a more strategic and collaborative platform
- Serve as an agency technical contact for all CJIS-related projects, including the CT Information Sharing System (CISS)
- Enhance department information systems to better leverage social media

**Preferred Skills:**

- Experience with managing large, complex, public safety information systems projects (PMI certification a plus)
- Experience with gathering requirements, developing use cases, test cases and plans
- Experience with Java, XML, DB2, and SQL programming
- Experience with data migration including data analysis, mapping and converting data to Microsoft SQL Server
- Experience configuring COTS products including the use of rules engines
- Experience with designing and developing Microsoft SharePoint sites and workflows
- Experience with developing mobile applications and/or modifying systems for mobile use
- Experience with enterprise document management platforms (i.e. FileNet)
- Familiarity with leading commercial and open source Web applications and servers (i.e. WebSphere Application Server)
- Familiarity with Web 2.0 collaboration and social media tools (i.e. SharePoint, Facebook, Twitter, etc.)
- Strong oral and written communication skills

**General Experience:**

Six (6) years of experience in information technology (IT) operations, programming, systems/software development or another IT related support area.

**Substitution Allowed:**

1. College training in management information systems, computer science or information technology related area may be substituted for the General Experience on the basis of fifteen (15) semester hours equalling six (6) months of experience to a maximum of four (4) years for a Bachelor's degree.
2. A Master's degree in management information systems, computer science or electrical engineering may be substituted for one (1) additional year of the General Experience.

**Special Experience:**

1. A Master's degree in management information systems, computer science or electrical engineering may be substituted for one (1) additional year of the General Experience.
2. Installation and support of microcomputer hardware, software and operating systems.
3. Analysis, design and development of information systems.
4. Network hardware and software installation and support.
5. Network hardware and/or software problem diagnosis and resolution.

**NOTE:** For state employees this is interpreted at the level of Information Technology Analyst 1.

**Note:** The filling of this position will be in accordance with reemployment, SEBAC, transfer, and promotion employment rules, if applicable.

**Application Instructions:**

Interested and qualified candidates who meet the above requirements should submit a cover letter, resume, CT-HR/12 (State Application) & CT-HR/13 (Addendum), and two (2) letters of professional references from current and/or previous supervisors. State employees must submit two most recent performance appraisals in lieu of references by **\*Monday, April 23, 2012 close of business** to:

**The Department of Emergency Services & Public Protection**

**1111 Country Club Road, Middletown, CT 06457-9294**

**Attn: Terry Vasile, Human Resources Specialist**

**Fax: (860) 685 – 8356**

\*Incomplete or late application packages will not be considered.

Please note that due to the large volume of applications received, we are unable to field phone inquiries and confirm receipt of applications. If faxing your packet; please do not send the original via mail.

Interested candidates for employment at the Department of Emergency Services and Public Protection are subject to a detailed background investigation, including a criminal check, federal and reference checks. Selection for employment is contingent upon satisfactory completion of the background investigation.
