

ITEM NO. 470 – Q

RE: **Additional Compensation for Environmental Protection Radiation Classes.**

**Senior E.P. Radiation Control Physicist, Class Code 7167, Salary Group ES 26**

**E.P. Radiation Control Physicist, Class Code 3441, Salary Group ES 23.**

EFF: December 5, 1986

Authorization is approved for a supplementary rate of compensation for the Department of Environmental Protection's radiation classes. The additional compensation for the radiation series will be issued in the following amounts on an annual basis:

Senior E.P. Radiation Control Physicist	\$3,500
E.P. Radiation Control Physicist	3,000

This authorization is issued in recognition of the recruitment difficulties in this area due to a shortage of qualified people involved in the radiation profession, competition with public and private industry and Connecticut salaries being generally under the prevailing market rates.

The Department of Administrative Services will conduct a periodic review to determine the need for continuation of this item based on the labor market and recruitment conditions. Need will also be reviewed prior to any subsequent reevaluation of the class.
