- **CONTRACT INFORMATION:**  
[DAS Contracts](#)  
[Contracts Expiring](#)

- Now entering its third year, the Contractor Prequalification program continues to provide Connecticut agencies and municipalities with a list of prequalified building contractors for construction work by the state or a municipality, estimated to cost more than \$500,000 and which is funded in whole or in part with state funds. In an effort to assist Connecticut municipalities in correctly utilizing the program, the Department of Administrative Services, Contractor Prequalification Unit has prepared an informational flyer. This document includes information on the law and the prequalification program, as well as sample bid advertisement language. It is hoped that the information provided in the flyer will help municipalities follow the law and result in only the finest, most ethical building contractors participating in state-funded construction work.

If your bid is estimated to exceed \$500,000 for a construction project which is funded in whole or in part with state funds, your bid advertisement must specify a DAS Prequalified contractor and the Classification(s) you are seeking.

You must provide Contractor Performance Evaluations at 50% completion and at 100% complete.

For more information, contact us at (860) 713-5280.

The months of planning and budgeting are complete, the referendum has passed and you are finally ready to begin construction of a new school in your town. Your building committee believes they've attended to every detail, but have they? Unless your proposed bid language reflects the law concerning Contractor Prequalification and you are prepared to provide your prequalified contractors with Performance Evaluations, you still have work to do.

Connecticut law directs municipalities to:

- Seek a prequalified contractor when a bid is expected to exceed \$500,000 for a construction project which is funded in whole or in part with state funds, and indicate in the bid advertisement the classification(s) for which contractors are being sought.
- Provide those contractors with a Performance Evaluation at 50% project completion and provide both the contractor and DAS with a Performance Evaluation at 100% completion.

The law is clear, but how does a municipality fulfill its obligations under the law? The first step is in properly preparing the bid advertisement. **See below, or click the link on the right titled "Bid Language Sample"** for a guide to writing a bid advertisement for Prequalified contractors.

Once the project is underway with a Prequalified contractor, it will be necessary to provide a Performance Evaluation to the contractor at 50% completion, and another to both the contractor and the DAS Prequalification Unit at 100% completion.

For a hard copy of this form, **click the link on the right for "Contractor Performance Evaluation Form."**

Any public agency that fails to submit a completed evaluation form, as required by this section, not later than seventy days after the completion of a project, shall be ineligible for the receipt of any public funds disbursed by the state for the purposes of the construction, reconstruction, alteration, remodeling, repair or demolition of any public building or any public works project until such completed evaluation form is submitted.
