At the UCHC this position is accountable for designing and developing effective teaching and assessment strategies in an electronic learning environment for the University of Connecticut A.J.Pappanikou Center for Excellence in Developmental Disabilities Education, Research and Service. (UCEDD)

Knowledge, Skills and Abilities: Demonstrated expertise in developing instructional resources.
Proficiency with Microsoft Office products,(Excel, Word, PowerPoint and Sharepoint Designer)
Proficiency with standard web technologies, languages and authoring tools, and graphic/multimedia development tools.
Thorough knowledge and experience in instructional design and adult learning theories.
Strong interpersonal and project management skills in order to motivate and encourage faculty to try new and different learning styles.
Experience with distributive course management systems.
Portfolio or online examples of completed projects.

General Experience: Masters in Instructional Design, Educational Technology or other related degree with 2 years professional experience preferably in an academic setting.

Preferred Experience: Experience interacting working with individuals with disabilities.
Experience working in a university setting.
Proficiency with Blackboard and other instructional platforms.

Examples of Duties: Guides faculty in the application of effective teaching and assessment strategies in a web-based learning environment. Works closely with faculty and other UCEDD team members to produce a variety of learning materials for use in the classroom, individual and group study. Designs and develops instructional web pages and online courses with the focus on usability. Builds templates and supports faculty in the creation and design of on-line instruction. Integrates technology in traditional courses and provides instructional technology support. Works one/one with and provides workshops for faculty in developing and applying instructional design principles to the online learning environment. Tracks trends in technology. Introduces and implements emerging educational technologies while assisting faculty with its development, assessment and evaluation. Provides management and support for electronic classrooms. Works cooperatively with other UCHC departments to provide appropriate curricular support. Designs and develops the Center's graphic and multimedia tools, the Center's web page and online social media sites. Performs other related duties.

Note: The filling of this position will be in accordance with reemployment, SEBAC, transfer, promotion and merit employment rules, if applicable.

Application Instructions: Interested and qualified candidates who meet the above requirements please apply to: <https://jobs.uchc.edu> and reference search code 2012-987. Cover letter, resume and references may be uploaded at the time you apply on-line.
