ADT Security Site Audits for State Agencies

In order for ADT Security Services to meet contractual obligations, ADT requires full access to agency facilities currently utilizing ADT for monitoring, inspection, testing and/or maintenance of security systems.

Since the inception of Contract 09PSX0292 in May 2010, there are still many facilities with existing security equipment, such as video surveillance, access control, alarms and any other security components, which require a site audit. The purpose of the audit is to allow ADT to compile a list of existing security equipment within a given facility. ADT will compile this information and provide your agency a proposal for monitoring, inspection, testing, and/or maintenance.

ADT will not be scheduling appointments for these audits. All audits will be completed by ADT technicians during normal business hours. If your agency requires an agency escort, please contact ADT at 203-741-4160 immediately to schedule an appointment. Alternate phone number: Ryan Baldyga at 203-741-4027.

Please provide this communication to those individuals that are involved with the building security.

If you have any questions, you may contact ADT directly or Linda LoSchiavo at DAS/Procurement Services: 860-713-5078 or linda.loschiavo@ct.gov.
