Your call will be answered through the Department of Energy and Environmental Protection Dispatch Office, which will assist you.

Online
Go to:
<http://das.ct.gov> and click on **FLEET OPERATIONS** for additional information on fueling locations, accident forms and mileage reports.

We've Moved!

Fleet Operations has packed up our files, computers and over 3,500 spare keys and headed off to a new location! The best part of the move is that we didn't have to go outside - our new office is still located in the State office Building, 165 Capitol Avenue. It's just four floors higher than G-19 where we have been located for the past four years.

Our new location is Room 409, which is on the north side of the building. We have completed the circle as it was about six years ago that we left 409 for room 485 and then to G-19. Who says you can't go home?

We have updated the Fleet webpage to reflect our new location, and added the address to Inroads.

Winter Tips

Who can forget the snowstorms of January of 2011? Or for that matter, the pile of white stuff that arrived on October 29th? As we approach the official start to winter it's a great time to remind all drivers of DAS vehicles to make sure that their windshield wipers are in good condition and washer fluid topped off. Although these items are checked and addressed at each service, it is certainly possible that they will need attention at some point before the vehicle is due back. All drivers of DAS vehicles should know that they can stop by any of our maintenance facilities if they are in need of wipers or washer fluid. No appointment is necessary – although an advance call is always appreciated.

FLEET FACTS

Here is the latest look at the make up of our Fleet by vehicle type.
